pi-top [4]

Power armour
for your Raspberry Pi 4

COMPLETE

pi-top [4] Complete is the fastest and simplest way to start using Raspberry Pi. Everything you need to power up your projects is pre-installed in this rugged case, including the Raspberry Pi 4 itself.

With the modular pi-top [4] system you can create anything from a musical instrument to the ultimate alarm system. Explore our online project library to learn to code and control your creations.

$199.95
(Includes all accessories and a Raspberry Pi 4 4GB RAM)

Project kits & accessories available

DIY EDITION

pi-top [4] DIY Edition, at its core, has the same powerful features as pi-top [4] Complete, but we've stripped back all the accessories that you might already have. Simply install your own Raspberry Pi 4 in pi-top [4] DIY Edition's rugged case and start making portable or mobile projects.

From rovers to drones: the only limit is your imagination.

$99.95
(Accessories and Raspberry Pi 4 sold separately)
