

pi-top [4]

Protective Case.

Keep your pi-top [4] scratch-free with our flexible protective case.

Take it anywhere

pi-top [4] Protective Case is specially designed for the pi-top [4]. Protect your favorite making device from bumps and scratches, and add a splash of color.

Long-lasting protection

Made from high-quality TPU. The Protective Case provides a comfortable and non-slippery grip.

Easy access to all of the controls

With the Protective Case, you can add an extra layer of protection to your pi-top [4] while still being able to access all of pi-top [4]'s controls and features such as USB ports, dual HDMI connectors, Raspberry Pi's GPIO pins, power supply and Gigabit Ethernet.
