

KNOW YOUR Pi

Since 2012, Raspberry Pi has taught millions of people all over the world how to program and create their own electronics projects. Five years later, we're only too happy to celebrate this small-but-mighty platform on Pi Day!

Let's take a look at all the different flavors of one of our favorite families of single-board computers.

WISHING YOU AND YOURS A LOVELY 3/14

And there you have it: everything you've ever wanted to know about Raspberry Pi (and maybe some things you didn't want to know about tarantulas). We hope you enjoyed this annual celebration of all things Pi - now go forth and create!

*TARANTULAS TYPICALLY WEIGH BETWEEN 28.3g AND 85g SOAKING WET AND ARE NOT A THREAT TO HUMANS (LIVESCIENCE.COM)
