

*Cut these shapes out of felt or thick fabric to cover your electronics.*

**Moon:**

*This piece will cover the battery holder and LilyTwinkle. Use velcro to attach to your finished project so you can access the battery holder.*

**Cat:**

*This piece will cover two LEDs under the eyes. Don't forget to cut out the eyes so the lights shine through! Use a hobby knife for small edges and details. Use thin yellow or red fabric behind the eyes for a fun look.*

**Pumpkin:**

*This piece will cover two LEDs under the eyes.*

*Print this page on cardstock to use as templates. You can also print on photo fabric and color in/cut out the shapes.*
